

The Environmental Policy has been developed by the Board of Directors of **Al Nasr Contracting Company L.L.C.** to cover the varying operations executed by the Company. The Board of Directors recognises that Environmental Management is a key business priority and is actively committed to continual environmental improvement and the prevention of pollution.

In particular, the Company will:

- Establish and maintain an appropriate environmental management system which conforms to the requirements of the ISO14001:2004 standards and provides a framework for setting and reviewing our environmental control measures and targets and objectives.
- Comply with all relevant legislation, standards and codes of practice and with other requirements to which the Company subscribes which relate to our environmental aspects.
- Strive to make efficient use of energy and materials, including substitution for renewable resources wherever practicable.
- Ensure that all associated residual waste materials are disposed of in a safe and responsible manner.
- Seek to reduce harmful emissions wherever possible.
- Promote the recycling of materials and the use of recycled materials.
- Incorporate environmental issues into Company training and encourage sound environmental practices by all persons engaged in operations on behalf of the Company.
- Strive to operate in a socially responsible manner towards the environment applying the concepts of sustainable development where reasonably practicable.
- Ensure that the policy is brought to the attention of all employees and is made available to other interested parties on request including the general public.

Senior Management will periodically review the environmental performance in order to report on progress and update targets and objectives as required.

SAMI SIDAWI
Chairman
